This week the children have been busy with all sorts of experiments and projects for World Space Week. Some fascinating work has been produced, including satellites, learning about weights of gases and some out-of-this-world art work. Take a look at the photos of some of this week's activities on the next page.

### Notices:

Please can we remind all parents and carers that for safety reasons, the play equipment on the school playground must not be used by any children before or after school.

As there is limited parking available outside the school, please can all parents and carers leave promptly after dropping off or collecting their children before and after school. This will also help to ensure that we are all being responsible with regards to social distancing by not gathering on the premises.

## LOUD SHIRT DAY THURSDAY 22ND OCTOBER

Wear your brightest LOUDEST shirt to school for Loud Shirt Day and get LOUD to give more deaf children the opportunity to learn to listen and talk please send your child in with a donation of £1 for AVUK, Auditory Visual UK on the day.

### SMARTIE CHALLENGE

The children are invited to participate in a Smarties Fundraising Challenge during the school holiday to raise money to convert the school sheds into a learning space. **Information is coming home on Parentmail from The Friends**

| 2/11/20         | Inset Day                |
| 3/11/20         | First Day of Term 2      |
| 6/11/20         | Flu Vaccinations         |

# World Space Week

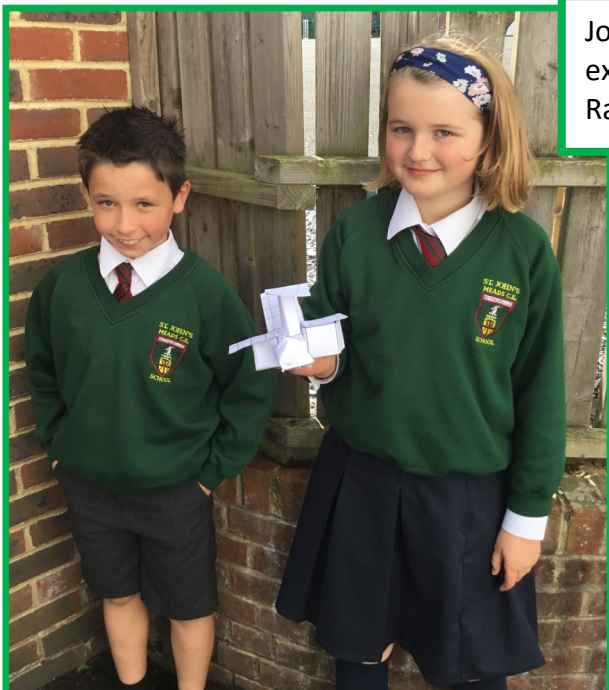

Year 3 have used their HUB session this week to research their favourite planet in our solar system and create a power point with the information they have found! Once finished, they will have the opportunity to present their work to the rest of the class! Year 3 have been developing their research skills and skills using Microsoft power point

Year 4 have been learning about the weights of gases. They made mixed together vinegar and baking soda to create carbon dioxide which is heavier than the gases in the air around it so it stayed inside the jug. They then poured the carbon dioxide over candles, which had the effect of dispersing the surrounding air and extinguishing the flame.

Josh and Emma in Year 5 made a fantastic satellite— excellent collaboration from this week's Year 5 joint Rainbow Award winners.

Year 1 creating some out-of-this-world astronauts
