I. Vision and Values

Our **vision** for our Trust is we exist to:

Help every child achieve their God-given potential

Our **aims** are clear. We aim to be a Trust in which:

- D**eveloping the whole child means pupils achieve and maximise their potential
- C**ontinued development of staff is valued and improves education for young people
- A**ll schools are improving and perform above national expectations
- T**he distinct Christian identity of each academy develops and is celebrated

Our work as a Trust is underpinned by shared **values**. They are taken from the Church of England's vision for Education and guide the work of Trust Centre team. They are:

Aspiration

I can do all things through Christ who strengthens me
(Philippians 4 vs 13).

Wisdom

Listen to advice and accept discipline, and at the end you will be counted among the wise
(Proverbs 19 vs 20)

Respect

So in everything do to others what you would have them do to you
(Matthew 7 vs 12)

Our vision of helping every child achieve their God-given potential is aligned with the Church of England's vision for education and is underpinned by the Bible verse from John: *I have come that they may have life, and have it to the full.*

The School's Vision:

Loving learning and loving one another, as God loves us.
Celebrating success in its many forms and overcoming challenges.
Praying for and caring for our whole community.
Living in the light of Christ and as a light to others.

2. Introduction

This document is a statement of our aims, principles and strategies used to deliver Relationship and Sex Education at St. John's Meads CE Primary School. Our school's policy on Relationship and Sex Education (RSE) is based on the Department for Education's (DfE) document 'Relationship and Sex Education Guidance' (DFES0116/2000).

Documents that inform the school's Relationship and Sex Education policy include:

- Education Act (1996);
- Learning and Skills Act (2000);
- Education and Inspections Act (2006);
- Equality Act (2010);
- Supplementary Guidance SRE for the 21st century (2014);
- Keeping children safe in education – Statutory safeguarding guidance (2016); and
- Children and Social Work Act (2017)

Revised DfE statutory guidance states that from September 2020, all schools must deliver relationships education (in primary schools).

The parental right to withdraw pupils from Relationship and Sex Education (RSE) remains, in primary education, for aspects of sex education which are not part of the Science curriculum. At St John's Meads, this is taught in years 4, 5 and 6.

Relationship Education and Health Education are to become statutory for all children from 2020 – there is no right to withdraw from these aspects of the Personal, Social and Health Education (PSHE) curriculum.

At St. John's Meads, we are committed to offering all pupils a first-class, child centred education. The Christian traditions of the school make an important contribution to this. Christian values, principles and beliefs influence the curriculum and relationships in the school. Our school policy also adheres to the Church of England 'Valuing All God's Children' document (September 2019). This states that:

In creating a school environment that promotes dignity for all and a call to live fulfilled lives as uniquely gifted individuals, pupils will be equipped to accept difference of all varieties and be supported to accept their own gender identity or sexual orientation and that of others. In order to do this, it will be essential to provide curriculum opportunities where difference is explored, same-sex relationships, same-sex parenting and transgender issues may be mentioned as a fact in some people's lives. For children of same-sex or transgender parents or with close LGBT relatives this will be a signal of recognition that will encourage self-esteem and belonging.

In the early years' context and throughout primary school, play should be a hallmark of creative exploration. Pupils need to be able to play with the many cloaks of identity (sometimes quite literally with the dressing up box). Children should be at liberty to explore the possibilities of who they might be without judgement or derision. For example, a child may choose the tutu, princess's tiara and heels and/or the firefighter's helmet, tool belt and superhero cloak without expectation or comment. Childhood has a sacred space for creative self-imagining.

Childhood needs to be a period where we can make mistakes, try things out, explore projects and identities, without having to be bound by the consequences.

As a school, we ensure that we address all areas of Relationship and Sex Education and PSHE at an age-appropriate level and in a sensitive and inclusive manner. We have an open-door policy towards discussing any issues with parents. Our parents have access to our topic overviews – this allows our parents the opportunity to support the teaching we are covering in school to be explored further at home.

We believe Relationship and Sex Education is important for all our pupils and our school because it prepares our children with the knowledge, understanding and skills which will enable them to make informed choices about their current and future relationships. It is not our job to promote any specific relationship as more important or better than another: we simply aim to engender a culture where people are free to make their own choices, free of prejudice and judgment. In line with Christian teachings, everyone is valued and loved, including those from the LGBTQ+ communities (Equalities Act 2010).

Relationship and Sex Education is learning about the emotional, social and physical aspects of growing up, relationships and reproduction. It will equip children and young people with accurate information, positive values and the skills to enjoy healthy, safe and positive relationships, to celebrate their uniqueness and to take responsibility for their health and wellbeing now and in the future.

Relationship and Sex Education is an integral part of our PHSE programme, an area which is considered important throughout our school. We will be guided in our teaching of it by the values and principles of the Church of England.

We believe that Relationship and Sex Education is an ongoing process, which should start in the home and continue at school. This process should happen in partnership with parents. A positive effort has, and will continue to be made to inform and involve parents.

Parents of the school are aware of when and how topics will be taught (Appendix 1). They are encouraged to come into school and view resources if they wish to do so. The school will continue to consult with them with regards to content and materials.

The school's programme of Relationship and Sex Education is embedded within the school's PSHE curriculum and helps children to respect themselves and others. The programme is tailored to the age and the physical and emotional maturity of the children and is delivered by the school staff and, sometimes, invited professionals.

Parents have the right to withdraw their children from all or part of any sex education provided, but not from the biological aspects of human growth and reproduction provided under the National Curriculum Science or the statutory requirements for Health and Relationships education. (See Appendix 3 for Right to Withdraw form)

3. Policy Development

This policy was developed in consultation with staff, pupils and parents. The consultation and policy development process involved the following steps:

1. Review – a member of staff or working group pulled together all relevant information including relevant national and local guidance.
2. Staff consultation and training – all class based staff were given training on the changes to the curriculum and had the opportunity to make comments and ask questions.
3. Parent/stakeholder consultation – a parent working party discussed parental concerns, looked at elements of the curriculum, offered comments and asked questions.
4. Pupil consultation – pupils' needs with regard to Relationship and Sex Education were identified through a PSHE activity in Upper Key Stage 2.
5. Ratification – once amendments are made, the policy will be shared with governors and ratified.

4. Definition

Relationship and Sex Education is about the emotional, social and cultural development of pupils, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity.

Relationship and Sex Education involves a combination of sharing information, and exploring issues and values.

Relationship and Sex Education is not about the promotion of sexual activity.

5. Aims and Objectives for Relationship and Sex Education

We aim to deliver Relationship and Sex Education in an objective, balanced and sensitive manner set within a clear framework of Christian Values. At St John's Meads, we endeavour to provide children with age appropriate information, explore attitudes and values and develop skills in order to empower them to make positive decisions about their health and relationship related behaviour.

These areas of learning are taught within the context of family life taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

Relationship and Sex Education focuses on teaching the fundamental building blocks and characteristics of positive relationships including:

- Families and people who care for me
- Caring friendships
- Respectful relationships
- Online relationships
- Being safe

The objectives of Relationship and Sex Education are;

- To provide the knowledge and information to which all pupils are entitled
- To clarify/reinforce existing knowledge
- To raise pupils' self-esteem and confidence, especially in their relationships with others
- To help pupils understand their sexual feelings and behaviour, so they can lead fulfilling and enjoyable lives
- To help pupils develop skills (language, decision making, choice, assertiveness) and make the most of their abilities.
- To provide the confidence to be participating members of society and to value themselves and others
- To help gain access to information and support
- To develop skills for a healthier safer lifestyle
- To develop and use communication skills and assertiveness skills to cope with the influences of their peers and the media
- To respect and care for their bodies
- To be prepared for puberty and adulthood

Special Educational Needs and Disabilities (SEND)

We believe that Relationships Education, Relationship and Sex Education and Health Education must be accessible for all our pupils. This is particularly important when planning teaching for pupils with special educational needs and disabilities. At St. John's Meads, we provide quality teaching that is differentiated and personalised which will be the starting point to ensure accessibility. We are also mindful of preparing children for adulthood outcomes, as set out in the SEND code of practice, when teaching these subjects to those with SEND.

At St. John's Meads, we are aware that some pupils may be more vulnerable to exploitation, bullying and other issues due to the nature of their SEND. Relationships Education and Relationship and Sex Education can also be particularly important subjects for some pupils; for example, those with Social, Emotional and Mental Health needs or learning disabilities. These factors will be taken into consideration when teaching these subjects.

6. The Teaching Programme for Relationship and Sex Education: Legal Requirements

All schools must teach the following as part of the National Curriculum Science programme of study. Parents do not have the right to withdraw their child/children.

Foundation Stage

Children learn about the concept of male and female and about young animals. In ongoing PSHE work, they develop skills to form friendships and think about relationships with others.

Key Stage 1

Children should:

- Know the differences between things that are living and things that have never been alive.
- Know that animals, including humans, move, feed, grow, use their senses and reproduce.
- Name the main external parts, e.g. hand, elbow, knee, of the human body.
- Know that humans can produce babies and these babies grow into children and then into adults.
- Know that humans have senses which enable them to be aware of the world around them.
- Recognise similarities and differences between themselves and other pupils.

Through work in science children learn about life cycles of some animals, understand the idea of growing from young to old and learn that all living things reproduce. They learn about the importance of personal hygiene to maintain good health. In RE and Citizenship children reflect on family relationships, different family groups and friendship. They learn about rituals and traditions associated with birth, marriage and death and talk about the emotions involved. They begin to co-operate with others in work and play and begin to recognise the range of human emotions and ways to deal with them. They also learn about personal safety.

Key Stage 2

Children should:

- Know that there are life processes, including nutrition, movement, growth, and reproduction, common to animals, including humans.
- Know the main stages of the human life cycle.

In science, children build on their knowledge of life cycles and learn about the basic biology of human reproduction. Children are taught about the physical, emotional and social changes at puberty, which include personal hygiene. In RE and Citizenship, they continue to develop an understanding of relationships within a family, between friends and the community and that there are different patterns of friendship. They will develop skills needed to form relationships and to respect other people's emotions and feelings. They will consider how to make simple choices and exercise some basic techniques for resisting pressures. Relationship and Sex Education should focus on the development of skills and attitudes not just the acquisition of knowledge.

7. The role of other members of the community

We encourage other valued members of the community to work with us to provide advice and support to the children with regard to health education. In particular, members of the Local Health Authority, such as the school nursing team.

The role of parents

The school is well aware that the primary role in children's Relationship and Sex Education lies with parents and carers. We therefore wish to build a positive and supporting relationship with the parents of children at our school, through mutual understanding, trust and cooperation. To promote this objective, we;

- inform parents about the school's Relationship and Sex Education policy and practice;
- answer any questions that parents may have about the Relationship and Sex Education of their child;
- take seriously any issue that parents raise with teachers or governors about this policy, or about the arrangements for Relationship and Sex Education in the school;
- encourage parents to be involved in reviewing the school policy, and making modifications to it as necessary;
- inform parents about the best practice known with regard to sex education, so that the teaching in school supports the key messages that parents and carers give to children at home.

We believe that through this mutual exchange of knowledge and information, children will benefit from being given consistent messages about their changing bodies and their increasing responsibilities.

During Term 5, we share information with parents about the relationships and sex education to take place in Term 6 and invite parents/carers to view the content of the sessions and any resources and ask questions.

8. Delivery/Resources

Relationship and Sex Education is delivered through Science, RE, PSHE, Citizenship, literacy activities, circle time.

Relationship and Sex Education is taught by classroom teachers, teaching assistants and if appropriate, outside visitors such as the school nurse.

Our school follows the Jigsaw PSHE curriculum – it is taught through a spiral curriculum with areas of learning revisited at appropriate points in the child's development. This approach helps our children to build on their prior knowledge from previous years and develop age-related skills to meet their needs. Where possible, our Relationship and Sex Education (and PSHE) teaching weaves into our topic based approach – making learning relevant and meaningful.

Relationship and Sex Education will be taught using a range of teaching methodologies including story-telling, drama, discussions, individual private reflection, quizzes, fact finding, debating, independent research and artistic presentations etc. This wide range of teaching strategies promotes engagement by all pupils, irrespective of preferred learning styles. Distancing techniques, such as the use of characters within Relationship and Sex Education, avoids pupils feeling under pressure to participate or disclose information beyond that which is appropriate or feels comfortable. This strategy makes Relationship and Sex Education more accessible to all pupils, including those who may have experienced unhealthy relationships and/or abuse. The school's responsibility to safeguard pupils through a curriculum that prepares them to live safely in the modern world will remain central to curriculum content, teaching methodologies and supporting resources.

Relationship and Sex Education is usually delivered in mixed gender groups however; there may be occasions where single gender groups may be used.

Teachers must avoid expressing an opinion or endorsing a moral point of view on the issues of abortion, sexuality, sex change, sexual identity, alternative faiths or surrogacy. It is the teachers' role to encourage an open approach, where children are free to express their opinions.

9. Answering Difficult Questions

We believe that pupils should have opportunities to have their genuine questions answered in a sensible and matter-of-fact manner. However, occasionally a child may ask a particularly explicit, difficult or embarrassing question in class. One way to avoid this is written questions, rather than a hands up approach. Teachers will use their skill and discretion to decide whether to answer questions in class and, if so, how. Where teachers are unsure of this, they should explain to the child (children) that they will check this out and respond as soon as possible. Teaching staff should seek advice from the SLT (or PSHE Lead) if they need advice on how to address a difficult question. It is not the job of the teacher to have all the answers but to facilitate an open dialogue where all questions are valued. They will establish clear parameters of what is appropriate and inappropriate in class by discussing ground rules and by taking an approach that encourages pupils to be mature and sensible.

If a question is too explicit or inappropriate to be read or answered in class, teachers will acknowledge it and explain to the child that they will need to ask their parents. In these cases, staff will need to record this information (of the question and conversation had around the subject) on CPOMS and speak to parents so parents/carers have

the opportunity to address things at home. If a teacher is concerned that a pupil is at risk of sexual abuse they will follow the school's child protection procedures.

Confidentiality

Teachers' conduct Relationship and Sex Education lessons in a sensitive, supporting and open manner where children feel safe to express their opinions free of judgement and prejudice. Where children make comments in Relationship and Sex Education and PSHE sessions, other children are encouraged to show respect, tolerance and sensitivity. However, if a child makes a reference to being involved (or being likely to be involved) in sexual activity, then the teacher will take the reference seriously, and deal with it as a matter of child protection – see Safeguarding Policy. Teachers will respond in a similar way if a child indicates that they may have been a victim of abuse. They will not try to investigate but will immediately inform a DSL about their concerns. They will then deal with the matter in consultation with health care professionals (see also our policy on Child Protection and Confidentiality). School staff cannot promise absolute confidentiality if approached by a child for help. Staff must make this clear to children. Safeguarding procedures must be followed when any disclosures about abuse are made.

10. Roles and Responsibilities

The Local Governing Body

The Local Governing Body (LGB) will approve the Relationship and Sex Education policy, and hold the Headteacher to account for its implementation.

The Headteacher /PSHE Lead

The Headteacher and PSHE Lead are responsible for ensuring that Relationship and Sex Education is taught consistently across the school, and for managing requests to withdraw pupils from non-statutory/non-science components of Relationship and Sex Education (see Appendix I)

Staff

Staff are responsible for:

- Delivering Relationship and Sex Education in a sensitive and age-appropriate way
- Modelling positive attitudes to Relationship and Sex Education
- Monitoring progress
- Responding to the needs of individual pupils (SEND)
- Responding appropriately to pupils whose parents wish them to be withdrawn from the non-statutory/non-science components of Relationship and Sex Education

Staff do not have the right to opt out of teaching Relationship and Sex Education. However, staff who have concerns about teaching Relationship and Sex Education are encouraged to discuss this with the Headteacher.

Pupils

Pupils are expected to engage fully in Relationship and Sex Education and, when discussing issues related to Relationship and Sex Education, treat others with respect and sensitivity.

11. Parents' right to Withdraw

Parents have the legal right to withdraw their children from the non-statutory/non-science components of sex education within Relationship and Sex Education.

At St John's Meads, sex education (how a baby is conceived and born) is taught in the following Year groups:

Year 4: Jigsaw Puzzle Piece 2 - Having a baby
Year 5: Jigsaw Puzzle Piece 4 - Conception
Year 6: Jigsaw Puzzle Piece 3 - Babies: Conception to Birth

Parents will be invited to view resources prior to these lessons taking place.

Requests for withdrawal should be put in writing using the form found in Appendix 3 of this policy and addressed to the Headteacher. Alternative work will be given to pupils who are withdrawn from sex education.

Parents do not have the right to withdraw their children from relationships and health education which forms part of the PSHE curriculum. This includes key facts about puberty and the changing adolescent body, including menstruation.

12. Training

Staff are trained on the delivery of Relationship and Sex Education as part of our continuing professional development calendar.

The Headteacher/PSHE Lead may also invite visitors from outside the school, such as the school nursing team, to provide support and training to staff teaching Health, Relationship and Sex Education.

13. Monitoring Arrangements

The delivery of Relationship and Sex Education is monitored by The Headteacher/PSHE Lead through:

- Planning scrutinies
- Learning walks
- Books scrutinies
- Pupil Voice

Pupils' development in Relationship and Sex Education is monitored by class teachers as part of our internal assessment systems.

This policy will be reviewed bi-annually. At every review, the policy will be approved by the Headteacher and the LGB.

Appendix I: Curriculum Map

Science Curriculum – no right to withdraw

Year 1	<p>Animals including humans Identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.</p>
Year 2	<p>Animals including humans Notice that animals, including humans, have offspring which grow into adults. Find out about and describe the basic needs of animals, including humans, for survival (water, food and air). Describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene.</p>
Year 3	<p>Animals including humans Identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat. Identify that humans and some other animals have skeletons and muscles for support, protection and movement.</p>
Year 4	<p>Animals including humans Describe the simple functions of the basic parts of the digestive system in humans. Identify the different types of teeth in humans and their simple functions. Construct and interpret a variety of food chains, identifying producers, predators and prey.</p>
Year 5	<p>Animals including humans Describe the changes as humans develop to old age. Plants and Living Things Describe the life process of reproduction in some plants (and animals).</p>
Year 6	<p>Animals including humans Describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including microorganisms, plants and animals. Give reasons for classifying plants and animals based on specific characteristics. Evolution and inheritance Recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago. Recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents. Identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution.</p>

Jigsaw PSHE Curriculum –

	Being Me In My World	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me
Reception	Self-identity Understanding feelings Being in a classroom Being gentle Rights and responsibilities	Identifying talents Being special Families Where we live Making friends Standing up for yourself	Challenges Perseverance Goal-setting Overcoming obstacles Seeking help Jobs Achieving goals	Exercising bodies Physical activity Healthy food Sleep Keeping clean Safety	Family life Friendships Breaking friendships Falling out Dealing with bullying Being a good friend	Bodies Respecting my body Growing up Growth and change Fun and fears Celebrations
Year 1	Feeling special and safe Being part of a class Rights and responsibilities Rewards and feeling proud Consequences Owning the Learning Charter	Similarities and differences Understanding bullying and knowing how to deal with it Making new friends Celebrating the differences in everyone	Setting goals Identifying successes and achievements Learning styles Working well and celebrating achievement with a partner Tackling new challenges Identifying and overcoming obstacles Feelings of success	Keeping myself healthy Healthier lifestyle choices Keeping clean Being safe Medicine safety/safety with household items Road safety Linking health and happiness	Belonging to a family Making friends/being a good friend Physical contact preferences People who help us Qualities as a friend and person Self-acknowledgement Being a good friend to myself Celebrating special relationships	Life cycles – animal and human Changes in me Differences since being a baby Differences between female and male bodies (correct terminology) Linking growing and learning Coping with change Transition
Year 2	Hopes and fears for the year Rights and responsibilities Rewards and consequences Safe and fair learning environment Valuing contributions Choices Recognising feelings	Assumptions and stereotypes about gender Understanding bullying Standing up for self and others Making new friends Gender diversity Celebrating difference and remaining friends	Achieving realistic goals Perseverance Learning strengths Learning with others Group co-operation Contributing to and sharing success	Motivation Healthier choices Relaxation Healthy eating and nutrition Healthier snacks and sharing food	Different types of family Physical contact boundaries Friendship and conflict Secrets Trust and appreciation Expressing appreciation for special relationships	Life cycles in nature Growing from young to old Increasing independence Differences in female and male bodies (correct terminology) Assertiveness Preparing for transition
Year 3	Setting personal goals Self-identity and worth Positivity in challenges Rules, rights and responsibilities Rewards and consequences Responsible choices Seeing things from others' perspectives	Families and their differences Family conflict and how to manage it (child-centred) Witnessing bullying and how to solve it Recognising how words can be hurtful Giving and receiving compliments	Difficult challenges and achieving success Dreams and ambitions New challenges Motivation and enthusiasm Recognising and trying to overcome obstacles Evaluating learning processes Managing feelings Simple budgeting	Exercise Fitness challenges Food labelling and healthy swaps Attitudes towards drugs Keeping safe and why it's important online and off line scenarios Respect for myself and others Healthy and safe choices	Family roles and responsibilities Friendship and negotiation Keeping safe online and who to go to for help Being a global citizen Being aware of how my choices affect others Awareness of how other children have different lives Expressing appreciation for family and friends	How babies grow Understanding a baby's needs Outside body changes Inside body changes Family stereotypes Challenging my ideas Preparing for transition
	Being Me In My World	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me
Year 4	Being part of a class team Being a school citizen Rights, responsibilities and democracy (school council) Rewards and consequences Group decision-making Having a voice What motivates behaviour	Challenging assumptions Judging by appearance Accepting self and others Understanding influences Understanding bullying Problem-solving Identifying how special and unique everyone is First impressions	Hopes and dreams Overcoming disappointment Creating new, realistic dreams Achieving goals Working in a group Celebrating contributions Resilience Positive attitudes	Healthier friendships Group dynamics Smoking Alcohol Assertiveness Peer pressure Celebrating inner strength	Jealousy Love and loss Memories of loved ones Getting on and Falling Out Girlfriends and boyfriends Showing appreciation to people and animals	Being unique Having a baby Girls and puberty Confidence in change Accepting change Preparing for transition Environmental change
Year 5	Planning the forthcoming year Being a citizen Rights and responsibilities Rewards and consequences How behaviour affects groups Democracy, having a voice, participating	Cultural differences and how they can cause conflict Racism Rumours and name-calling Types of bullying Material wealth and happiness Enjoying and respecting other cultures	Future dreams The importance of money Jobs and careers Dream job and how to get there Goals in different cultures Supporting others (charity) Motivation	Smoking, including vaping Alcohol Alcohol and anti-social behaviour Emergency aid Body image Relationships with food Healthy choices Motivation and behaviour	Self-recognition and self-worth Building self-esteem Safer online communities Rights and responsibilities online Online gaming and gambling Reducing screen time Dangers of online grooming SMARRT internet safety rules	Self- and body image Influence of online and media on body image Puberty for girls Puberty for boys Conception (including IVF) Growing responsibility Coping with change Preparing for transition
Year 6	Identifying goals for the year Global citizenship Children's universal rights Feeling welcome and valued Choices, consequences and rewards Group dynamics Democracy, having a voice Anti-social behaviour Role-modelling	Perceptions of normality Understanding disability Power struggles Understanding bullying Inclusion/exclusion Differences as conflict, difference as celebration Empathy	Personal learning goals, in and out of school Success criteria Emotions in success Making a difference in the world Motivation Recognising achievements Compliments	Taking personal responsibility How substances affect the body Exploitation, including 'county lines' and gang culture Emotional and mental health Managing stress	Mental health Identifying mental health worries and sources of support Love and loss Managing feelings Power and control Assertiveness Technology safety Take responsibility with technology use	Self-image Body image Puberty and feelings Conception to birth Reflections about change Physical attraction Respect and consent Boyfriends/girlfriends Sexting Transition

Appendix 2: By the end of primary school pupils should know

TOPIC	PUPILS SHOULD KNOW
Families and people who care about me	<ul style="list-style-type: none"> • That families are important for children growing up because they can give love, security and stability • The characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives • That others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care • That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up • That marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong • How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed
Caring friendships	<ul style="list-style-type: none"> • How important friendships are in making us feel happy and secure, and how people choose and make friends • The characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties • That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded • That most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right • How to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed
Respectful relationships	<ul style="list-style-type: none"> • The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs • Practical steps they can take in a range of different contexts to improve or support respectful relationships • The conventions of courtesy and manners • The importance of self-respect and how this links to their own happiness • That in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority • About different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help • What a stereotype is, and how stereotypes can be unfair, negative or destructive

	<ul style="list-style-type: none"> • The importance of permission-seeking and giving in relationships with friends, peers and adults
TOPIC	<ul style="list-style-type: none"> • PUPILS SHOULD KNOW
Online relationships	<ul style="list-style-type: none"> • That people sometimes behave differently online, including by pretending to be someone they are not • That the same principles apply to online relationships as to face-to face relationships, including the importance of respect for others online including when we are anonymous • The rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them • How to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met • How information and data is shared and used online
Being safe	<ul style="list-style-type: none"> • What sorts of boundaries are appropriate in friendships with peers and others (including in a digital context)? • About the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe • That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact • How to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know • How to recognise and report feelings of being unsafe or feeling bad about any adult • How to ask for advice or help for themselves or others, and to keep trying until they are heard • How to report concerns or abuse, and the vocabulary and confidence needed to do so • Where to get advice e.g. family, school and/or other sources

TOPIC	PUPILS SHOULD KNOW
Mental wellbeing	<ul style="list-style-type: none"> • that mental wellbeing is a normal part of daily life, in the same way as physical health • that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations • how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings • how to judge whether what they are feeling and how they are behaving is appropriate and proportionate • the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental wellbeing and happiness • simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests • isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support • that bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing • where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental wellbeing or ability to control their emotions (including issues arising online) • it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough
Internet safety and harms	<ul style="list-style-type: none"> • that for most people the internet is an integral part of life and has many benefits • about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing • how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private • why social media, some computer games and online gaming, for example, are age restricted • that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health • how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted • where and how to report concerns and get support with issues online

Physical health and fitness	<ul style="list-style-type: none"> • the characteristics and mental and physical benefits of an active lifestyle • the importance of building regular exercise into daily and weekly routines and how to achieve this; for example walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise • the risks associated with an inactive lifestyle (including obesity) • how and when to seek support including which adults to speak to in school if they are worried about their health
Healthy eating	<ul style="list-style-type: none"> • what constitutes a healthy diet (including understanding calories and other nutritional content) • the principles of planning and preparing a range of healthy meals • the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health)
Drugs, alcohol and tobacco	<ul style="list-style-type: none"> • the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking
Health and prevention	<ul style="list-style-type: none"> • how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body • about safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer • the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn • about dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist • about personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing • the facts and science relating to allergies, immunisation and vaccination
Basic first aid	<ul style="list-style-type: none"> • how to make a clear and efficient call to emergency services if necessary • concepts of basic first-aid, for example dealing with common injuries, including head injuries
Changing adolescent body	<ul style="list-style-type: none"> • key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes • about menstrual wellbeing including the key facts about the menstrual cycle

Appendix 3: Parent form: withdrawal from sex education within Relationship and Sex Education

TO BE COMPLETED BY PARENTS			
Name of child		Class	
Name of parent		Date	
Reason for withdrawing from sex education within relationships and sex education			
Any other information you would like the school to consider			
Parent signature			

TO BE COMPLETED BY THE SCHOOL	
Agreed actions from discussion with parents	Include notes from discussions with parents and agreed actions taken.
